SHAIK MOHAMMAD SADIQ HUSSAIN

+91 9182032289 — sadiq05953@gmail.com — shaik-mohammad-sadiq-hussain — sadiq0482 — sadiq_portfolio

Professional Summary

Motivated **B.Tech Electronics and Communication Engineering** graduate with hands-on experience in **Java Full Stack Development**. Proficient in **Java, Spring Boot, React.js, MySQL, HTML, CSS, JavaScript, and RESTful API development**. Strong foundation in **Object-Oriented Programming (OOP), SQL, and software development principles**. Experienced in developing responsive web applications and passionate about solving real-world problems through technology. Eager to begin a career as a Software Developer and contribute to innovative software solutions in a growth-oriented organization.

Skills

Programming Languages: Java, Python
Frontend: HTML5, CSS3, JavaScript, Bootstrap, React.js
Backend: Spring Boot, REST APIs
Database: MySQL
Tools: Git, GitHub, Maven, Postman
Core Concepts: Object-Oriented Programming (OOP)

Projects

Task Management System | ***Java, Spring Boot, React.js, MySQL, JavaScript***

- Developed a full-stack Task Management System using Java, Spring Boot, React.js, and MySQL for efficient task management.
- Implemented user registration, login, and CRUD operations for creating, updating, deleting, and managing tasks.
- Designed and developed RESTful APIs using Spring Boot and integrated them with a MySQL database for seamless data management.
- Built a responsive user interface using React.js and JavaScript with task search, filtering, sorting, due-date management, and status tracking.
- Tested REST API endpoints using Postman and managed the project source code using Git and GitHub.

Weather App | ***React.js, JavaScript, HTML5, CSS3, Vite, OpenWeather API***

- Developed a responsive Weather App using React.js and Vite to fetch and display real-time weather information using the OpenWeather API.
- Integrated API data fetching and dynamic UI rendering to provide accurate weather updates based on user input.

Smart Irrigation System | ***Arduino UNO, Soil Moisture Sensor, Relay Module, Water Pump, Embedded C, IoT***

- Designed and implemented a Smart Irrigation System using Arduino UNO and soil moisture sensors for automated irrigation.
- Automated water pump operation based on soil moisture levels, reducing water wastage and improving irrigation efficiency.
- Integrated sensors and relay modules to enable real-time monitoring and automatic irrigation control.

Internships

Tap Academy May 2026 – Present
Java Full Stack Development Trainee

- Currently undergoing hands-on training in Java Full Stack Development with practical web application development.
- Learning Core Java, Object-Oriented Programming, MySQL, HTML, CSS, JavaScript, React.js, and Spring Boot.
- Developing full-stack web applications using Java, Spring Boot, React.js, and MySQL as part of project-based learning.
- Building and testing RESTful APIs using Spring Boot and Postman while following software development best practices.

Eduskills Apr 2025 – Jun 2025
Python Full Stack Development Intern (Virtual)

- Completed a virtual internship in Python Full Stack Development through Eduskills.
- Gained hands-on exposure to frontend technologies including HTML, CSS, and JavaScript.
- Strengthened problem-solving, debugging, and programming skills through practical assignments and projects.

Achievements

- **Elite Certificate – Transducers for Instrumentation (NPTEL)**

Education

B.Tech in Electronics and Communication Engineering 2022 – 2026
SVR Engineering College, Nandyal *CGPA: 7.38*

Intermediate (M.P.C) 2020 – 2022
Rao's Junior College, Nandyal *CGPA: 6.33*

Secondary School Certificate (SSC) 2019 – 2020
SRKV E/M School, Nandyal *CGPA: 10.0*
